(A Wholly- Owned Subsidiary of ABG Sundal Collier Holdings, Inc.)
NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 2007

1. GENERAL

ABG Sundal Collier, Inc. (the "Company") is a wholly- owned subsidiary of ABG Sundal Collier Holdings, Inc. ("Holdings"). Holdings is wholly- owned by ABG Sundal Collier, ASA ("ASA"), a Norwegian broker-dealer of securities. The Company is a registered general securities broker-dealer and is subject to regulation by the Securities and Exchange Commission ("SEC") and the Financial Industry Regulatory Authority ("FINRA").

The Company generates commissions by introducing institutional customer commission business to a clearing broker-dealer on a fully-disclosed basis. Accordingly, the Company does not carry customer accounts and does not receive, deliver, or hold cash or securities in connection with such transactions. The Company has executed a Proprietary Accounts of Introducing Brokers ("PAIB") Agreement with its clearing broker, who takes custody of the funds or securities of the Company's customers. In the event that customers of the Company fail to perform on their obligations, such obligations are the responsibility of the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Receivables from and deposit with clearing broker—The resulting net receivable from trade date transactions not settled as of December 31, 2007 and a deposit of \$250,000 at the clearing broker are reflected as receivable from and deposit with clearing broker in the statement of financial condition.

Cash and Cash Equivalents—Cash and cash equivalents include cash and time deposit accounts at banks with a maturity of seven days or less.

Furniture, Equipment and Leasehold Improvements—Furniture, equipment, and leasehold improvements are stated at cost less accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally three years for computer and telecommunication equipment and five years for furniture and fixtures. Leasehold improvements are amortized over the shorter of the lease terms or their useful lives.

Income Taxes—The Company is a member of a Federal affiliated group of which the Company and Holdings have elected to join in the filing of the group's consolidated income tax return. For financial reporting purposes, the Company's income taxes are reported on a separate company basis.

The Company utilizes the asset and liability method to calculate deferred tax assets and liabilities. The amount of current and deferred taxes payable or refundable is recognized as of the date of the financial statements, utilizing tax laws and rates expected to be in effect at the time of reversal. Deferred tax expenses or benefits are recognized in the financial statements for the changes in deferred tax liabilities or assets between years. Valuation allowances are recognized if, based on the weight of available evidence, it is more likely than not that some portion of the deferred tax assets will not be realized.

NOTES TO FINANCIAL STATEMENT

DECEMBER 31, 2007

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ materially from those estimates.

New Accounting Developments—In July 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48, *Accounting for Uncertainties in Income Taxes—an Interpretation of FASB Statement No. 109* ("FIN 48"). FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken in a tax return. The Company must presume the tax position will be examined by the relevant tax authority and determine whether it is more likely than not that the tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. A tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2007. The Company is currently evaluating the financial statement impact of adopting FIN 48.

In September 2006, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the financial statement impact of adopting SFAS No. 157.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. This Statement provides a "Fair Value Option" under which a company may irrevocably elect fair value as the initial and subsequent measurement attribute for certain financial assets and liabilities. This Fair Value Option will be available on a contract-by-contract basis with changes in fair value recognized in earnings as those changes occur. The effective date for this Statement is the beginning of each reporting entity's first fiscal year that begins after November 15, 2007. The Statement also allows an entity to early adopt the Statement provided that the entity also adopts the requirements of SFAS No. 157. The Company is currently evaluating the financial statement impact of adopting SFAS No. 159.

Furniture	\$ 132,021
Computer Equipment	337,091

	977,173
Less accumulated depreciation and amortization	<u>(835,902)</u>
	<u>\$ 141,271</u>

4. INCOME TAX

The major sources of temporary differences and their deferred income tax effects as of December 31, 2007 are as follows:

Deferred tax assets:

Net operating loss carryforward (\$56,400 current)	388,768
Less: Valuation allowance (noncurrent)	<u>(261,097)</u>
Net deferred tax assets	<u>\$ 180,179</u>

A valuation allowance of \$261,097 was established in prior years for the portion of the federal net operating loss carryforward which may not be utilized due to a prior ownership change. Based upon available evidence, it appears more likely than not that this particular element of the net deferred tax asset will not be realized.

10. ESTIMATED FAIR VALUE OF FINANCIAL INSTRUMENTS
